

Team Project Progress Report:

Week 1

In Week 1, we did not know about team project or what would we be doing in the course. Even though sir gave an overview about the course in the 1st lecture, things were not clear. So, there was no work done. Moreover, there was no team formed during the first week. So, during the first week, I worked more towards attaining some knowledge.

Week 2

Previous Week's goal- Nothing

Present Week goal- To think of an innovative idea for the group project and start learning in group.

#1. Me and my group sat together for 2 hours thinking what software we can develop which should be kind of innovative and dynamic.

#2. Learnt the art of thinking in an innovative manner in a team and working in a team.

#3. Divided the work in the team and started thinking about the possible ways of solving the problem.

Accomplishments- Thinking of some innovative ideas, Working in a team.

Next week goal- Finalise on the project, technologies and timeline we would set for the completion of the project.

Week 3

Previous Week's goal- To think of innovative project.

Present Week goal- Freeze upon the projects and the technologies.

#1. Discussed about 5-6 ideas with sir.

#2. Again improvised on how to think in a team.

#3. Discussed about the technologies we would be using for the project.

Accomplishments- Started thinking in an innovative manner and could estimate about the technology we would use for the development and the rough estimation of timeline for the completion of the project.

Next week goal- Start implementation.
